

ARTHI VINOD

Product Manager | AI Products | Bengaluru, India
arthivinod28@gmail.com | [linkedin.com/in/arthi-vinod-a17b3227a](https://www.linkedin.com/in/arthi-vinod-a17b3227a)

PROFESSIONAL SUMMARY

Product Manager with 5+ years owning end-to-end product charters across AI-powered SaaS platforms. Proven track record driving strategy, roadmap, and delivery from ambiguity through to measurable business outcomes. Experience spans platform onboarding, third-party integrations, compliance workflows, context engineering, and AI-powered features. Hands-on AI builder using Claude, Claude Code, and MCP connectors daily. Strong in data-informed prioritisation, PRD authorship, and cross-functional collaboration.

CORE SKILLS

AI and Building: Claude, Claude Code, MCP connectors, agentic workflow design, context engineering, LLM evaluation, Responsible AI governance

Platform and Onboarding: User activation, onboarding design, third-party integrations, compliance workflows, platform migration, cross-module experiences

Product Strategy: Charter ownership, OKR definition, roadmap planning, inception-to-launch delivery, competitive analysis, buy-build decisions

Discovery and Execution: User research, PRD authorship, user stories, sprint planning, backlog management, cross-functional coordination

Data and Metrics: KPI definition, impact sizing, SQL working knowledge, product analytics, outcome tracking

Tools: Jira, Confluence, Aha, GitBook, Figma, Gong, Tableau, Google Analytics

EXPERIENCE

Product Manager | **Employ Inc** | Bengaluru, India | Mar 2025 to Present

AI product strategy and platform delivery across a multi-brand enterprise SaaS suite including Jobvite, Lever, JazzHR, and Pillar.

- Protected **USD 788K ARR** and supported a **USD 2.2M pipeline** through AI product stabilisation; reduced end-user time-on-task by **67%** through targeted workflow improvements
- Owned full product charter across a **USD 56M ARR portfolio** — defined OKRs, sequenced roadmap, and drove delivery from discovery through production across concurrent workstreams
- Led **platform onboarding migration for Jobvite and Lever** — sunset native onboarding flows and integrating third-party platform Onboard; improved activation for enterprise customers
- Owned **Symmetry compliance integration** — tax forms, renewals, and compliance-related workflows across engineering, legal, and customer success
- Authored PRDs end-to-end as part of a **context engineering initiative** — ensuring the right data and context reached AI models for production-grade outputs
- Built and shipped an **AI-powered internal tool using Claude and Claude Code**; integrated MCP connectors with Gong and Tableau for real-time data workflows
- Designed and authored **Responsible AI governance framework** — explainability standards, failure protocols, permissions model — applied across 9 production AI features
- Analysed **4,000+ support tickets**; deflected **35%** of unnecessary engineering effort through data-informed prioritisation

Product Owner | **Flytxt Mobile Solutions** | Trivandrum, India | Oct 2022 to Dec 2024

AI SaaS platform for enterprise analytics and workflow automation — 10+ AI features delivered across 6 production launches.

- Owned **10+ AI SaaS features from 0 to 1** — drove discovery, requirements, cross-functional delivery, and iteration across 12+ concurrent projects
- Achieved **95% on-time delivery** across 6 production releases through structured backlog management, impact analysis, and sprint planning
- Conducted UX research across **50+ enterprise users**; synthesised insights to drive prioritisation and product improvements
- Defined success metrics and monitored business outcomes for every initiative; iterated based on data analysis and customer feedback
- Authored BRDs and user stories; led stakeholder demos and UAT cycles; collaborated with engineering, design, and data science across 12+ projects

Junior Product Owner | **AccessGates Labs** | *Mumbai, India* | *Jan 2021 to Sep 2022*

Digital product delivery across web and mobile surfaces.

- Managed product backlogs across **15+ projects**; coordinated cross-functional delivery with **90% on-time rate**
- Conducted UX research with **50+ users** and built Figma prototypes to validate usability improvements and inform roadmap decisions
- Self-starter; defined user stories and sprint workflows end-to-end with minimal direction and full ownership

SDE Intern - Frontend and Performance | **Pramati Technologies** | *Bengaluru, India* | *Jan 2019 to Dec 2020*

- Built and optimised UI components across 10+ projects using React, JavaScript, and HTML/CSS; reduced **page load times by 40%** and improved user satisfaction by 25%
- Resolved 15+ critical production issues across 5 platforms; worked in Agile and TDD environments
